

## Senate e-Bulletin November 2020

### Welcome!

Welcome to the bulletin designed to provide you with news from the Yorkshire and the Humber Clinical Senate. **The Senate provides free and fully independent clinical advice on service change proposals.** You will find on our [website](#) a range of information on the Senate, our published work and a selection of our case studies.

### Annual Report 2019-20

We are delighted to attach a link to our 2019 – 20 [Annual Report](#). I hope you enjoy reading about our work over the last 12 months.

### Update on Current and Recently Completed Reviews

Our present and forthcoming work includes:

- **Pontefract midwifery led unit (MLU).** Our continuing work with Wakefield CCG considering the options for the Pontefract midwifery led unit have been paused due to the focus on the response to COVID-19.
- **Cheshire & Merseyside - Macclesfield Hospital.** The system has developed a model of care and wish to use the principles and values within it to underpin the options for the services they want to provide. The Senate has been asked to conduct a tabletop review of this model and the timetable for this is currently being confirmed.

- **Bassetlaw Hospital.** We are working with Bassetlaw CCG to provide clinical advice on their proposals for changes to their mental health services. We have a short timeline as our report needs to be with the commissioners prior to the next stage of the assurance process.
- **West Yorkshire & Harrogate ICS.** We may have the opportunity to work with West Yorkshire & Harrogate ICS on their options for planned care and the prioritisation process for it.

## Council Membership and Opportunities for Clinicians

There has been a lot of interest in the advertised posts on our Council. We will be conducting interviews over the coming weeks and hope to be welcoming our new members before the end of the year.

The opportunity to join our Assembly always remains open and the recruitment details can be found on our [website](#).

## Work with Us

Please [contact us](#) if you would like to discuss any potential work with the Senate or have any queries on the above. We are keen to hear from you to understand what clinical input you would want from the Senate and ideally how we may best work with you.
